Carriers: View & Manage Assigned Loads

Tracking via telematics integration

Trucker Tools enables carriers to make updates to the assigned truck/trailer (asset ID) on live load tracks.

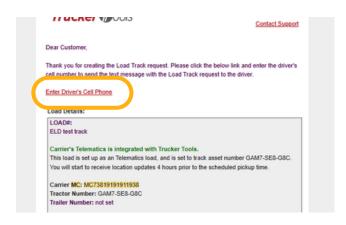

Follow the steps below for your preferred method.

Load Track Email

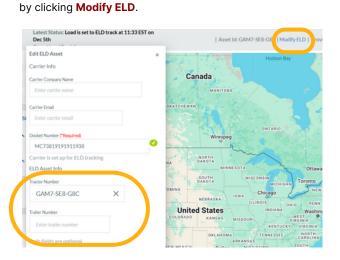

Open the Load Track

Request the broker to include your email address in the carrier contact information. Once the Load Track has been created, you'll receive an email from noreply@truckertools.com with a link to view and manage the load tracking request.

Click **Enter Driver's Cell Phone** to access the load track details page.

2 Update the assigned truck/trailer information
The load track page allows you to view the current track and update the vehicle or trailer information assigned to the load

Carrier Portal

Login to your Carrier Portal account

If you are unsure of your login credentials, click "Don't remember your password?" or contact our Support Team for assistance at support@truckertools.com or call 703-955-3560.

Carrier Portal Login Here

Access My Loads

In the left-hand menu, select My Loads.

From your list of active loads, select the 3 dots icon to the right of the load information, and click "Edit Driver Details".

From here, you can submit the changes you'd like to make to the truck/trailer/driver information.
